

# Special Care Dental Services

**This dental service treats people who need extra help to have dental treatment.**

# How we will help you

- with understanding the treatment you need and why.

- to help you feel happy at the dentist if you are worried or nervous.

- to get to the dentist.

- to get into the building.

- to get into the dental chair.

- to relax at the dentist.

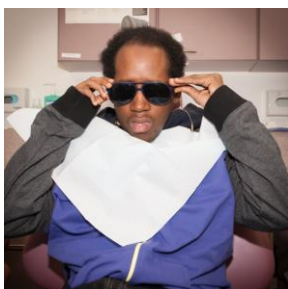

You may have an illness and need a specialist dentist.

You may need very difficult treatment.

You may need the dentist to come and see you at home.

You may need to go to sleep for your dental treatment.

The dentist may wear safety glasses and you may have to wear them as well.

Your doctor, your dentist or other health and social care staff will need to write and ask if we can see you.

We have dental clinics in;  
Alfreton  
Buxton  
Chesterfield  
Clowne  
Derby  
Ilkeston  
Long Eaton  
Matlock  
Swadlincote

Most dental clinics are open every weekday day.

We will try to see you at the dental clinic nearest to your home and at a good time for you.

If you have to pay NHS dental charges we will tell you about this before we treat you.

# How you need to help us and yourself

We will respect you and treat you well.

Please treat us the same.

We will try to see you as soon as we can but our service is only small and busy.

It is important to attend your appointments. We may say you cannot come again if:

- You cancel 3 visits
- or
- You miss 2 visits

We want to know if you like our service or if you are unhappy with us. Please tell us how you feel and how we could do better.
